

**DESCRIPTION**

OCTO 3420 is a digital pressure gauge. Powered by 2xAA batteries, it provides up to a year of reliable readings of pressure updated twice every second in active mode, and up to 5 years in on-demand mode. For user convenience, the instrument has a backlight with auto-off feature. In addition to the current pressure reading, a multifunctional display shows minimum and maximum values since the last reset. User can trim zero and the full scale, select measurement units, decimal point position, adjust auto-off timeout.
